MARIA SKŁODOWSKA-CURIE

Maria Skłodowska-Curie is a world-famous Polish inventor and two-time Nobel laureate. She developed radioactivity theories, techniques for separating radioactive isotopes, discovered the two elements, radium and polonium, thus going down in history as one of the world's greatest inventors.

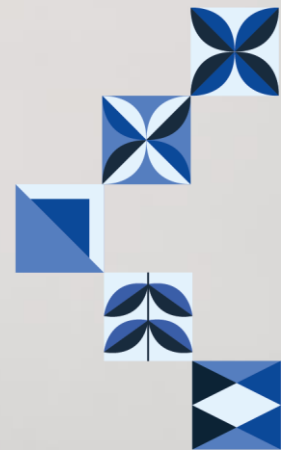

LUBLIN

Lublin is the largest and most dynamically developing urban centre in eastern Poland. As the capital of the Lubelskie Voivodeship, it plays the role of the region's administrative, economic and cultural centre.

The vibrant, seven-century Lublin history and its location in a multicultural melting spot constitute its unique qualities. Lublin is attractive for those who love history and the incredible architecture from its history setup. It is here that renowned international artistic events, theatre, music and contemporary art festivals take place. The high level of the cultural offer is also ensured by theatres, galleries and student clubs operating in the city. Organized concerts, performances, festivals and exhibitions enliven the streets of Lublin. Among the most famous cultural events are:

Carnival „Sztukmistrzów”
„Different Sounds” Festival
The Night of Culture
The Jagiellonian Fair
Festival of Central European Theatres „Neighbors”
Festival „Theatre Confrontations.”
European Festival of Taste

Lublin is one of the most important and thriving academic centres in Poland. Over 70,000 students study at renowned public universities and prestigious non-public universities, not only from Poland. The institutions encourage education with a wide range of study programs, excellent academic staff and activities to support students, including awards and scholarships.
